To Whom It May Concern

Last year our Electrical and Mechanical business rebranded and one of the more challenging tasks of this huge undertaking was the rebranding of our fleet of 150 vehicles based in various centres around New Zealand.

We took the decision of appointing a sign writing company to carry out this project very seriously and our rebranding committee met with five reputable sign writing companies to choose the best supplier.

Hunter Signs came to us highly recommended and within minutes of meeting with Ben we were also suitably impressed. His practical, professional and 'can-do' attitude allowed us to trust in him that the project would be carried out to a very high standard. We were not dissappointed. Indeed within 24 hours of meeting with Ben he had come back to us with artwork, ideas and extremely competitive rates.

Throughout the vehicle rebrand project, Ben and his team could not have been more wonderful to deal with. Ben was always available to help with any issues that arose and went out of this way to ensure that we were hardly inconvenienced, getting our service vehicles back on the road as quickly as possible. It was advantageous that Hunter Signs have first-rate sub-contractors based around the country and even in the smaller centres.

This project was finished on time and within budget thanks to the efforts of Ben and his team. We were extremely satisfied with the quality of the work that was carried out by Hunter Signs and would not hesitate to recommend them to anyone. They are an organisation that you can trust and depend upon to do the job right.

Regards
Tania O'Connell
